By Troy A. Swanson, Heather Jagman : Not Just Where to Click: Teaching Students How to Think about Information (PIL #68) (Publications in Librarianship) Not Just Where to Click: Teaching Students How to Think

about Information (PIL #68) (Publications in Librarianship):

1 of 2 review helpful the book overall was a great resource and promoted some healthy conversation among professional librarians By Faith Bible College The Association of Christian Librarians Information Literacy group has used this book in order to study together across the country Although there were a few perspectives that could be challenged the book overall was a great resource and promoted some healthy conversat Not Just Where to Click Teaching Students How to Think about Information explores how librarians and faculty work together to teach students about the nature of expertise authority and credibility It provides practical approaches for motivating students to explore their beliefs biases and ways of interpreting the world This book also includes chapters that bridge the gap between the epistemological stances and threshold concepts held by librari About the Author Heather Jagman is the coordinator of reference instruction and academic engagement and the subject liaison to the Theatre School at DePaul University Library in Chicago She was an ERIAL Project participant and a 2013 ACRL IMLS Assessme
