exam workbook key Crowdsourcing our Cultural Heritage (Digital Research in the Arts and Humanities):

Crowdsourcing or asking the general public to help contribute to shared goals is increasingly popular in memory institutions as a tool for digitising or computing vast amounts of data This book brings together for the first time the collected wisdom of international leaders in the theory and practice of crowdsourcing in cultural heritage It features eight accessible case studies of groundbreaking projects from leading cultural heritage and academic institutions and Crowdsourcing has risen in popularity among memory institutions with stunning rapidity However the distribution of the methodology among libraries archives museums and scientific and editorial projects presents a real challenge to researchers and practit
