**From Ingramcontent : Performing Digital: Multiple Perspectives on a Living Archive (Digital Research in the Arts and Humanities)** digital storytelling is a short form of digital media production that allows everyday people to share aspects of their story the media used may include the digital organized by subject and by course pepperdine university libraries infoguides bring together resources for conducting research at pepperdine university Performing Digital: Multiple Perspectives on a Living Archive (Digital Research in the Arts and Humanities):

Digital technologies have transformed archives in every area of their form and function and as technologies mature so does their capacity to change our understanding and experience of material and performative cultural production There has been an exponential explosion in the production and consumption of video online and yet there is a scarcity of knowledge and cases about video and the digital archive This book seeks to address that through the lens of the projec
