0 of 0 review helpful An inspiring and important read for librarians By Debbie the Librarian This is one of my favourite resources for librarians because it forces us to think about how libraries should be used in this cyber age The 21st century library must think of new and innovative ways to provide information and protect human rights The reading is insightful and inspirational 6 of 6 review helpful In this book the reader will encounter a myriad of urgent library and information voices reflecting contemporary local national and transnational calls to action on conflicts generated by failures to acknowledge human rights by struggles for recognition and representation by social exclusion and the library institution rsquo s role therein These voices infuse library and information work worldwide into social movements and the global discourse of human rights the hellip a necessary important and long overdue book SHINE Journal This is by far the best book I have read on librarianship for a very long time John Pateman Head of Libraries Learning and Inclusion Lincolnshire County Council Inspiring affirming act
