By Colin Darch, Peter G Underwood : Freedom of Information and the Developing World: The Citizen, the State and Models of Openness (Chandos Information Professional Series) Freedom of Information and the Developing World: The Citizen, the State and Models of Openness (Chandos Information Professional Series):

1 of 1 review helpful Really good book for the expert and new researcher on Freedom of Information Laws By Carole Excell This is a really good book that provides new insights into legal frameworks for addressing transparency and accountability in the developing world It provides new information for experts working in the field as well as for students who are studying these issues for the first time Its engaging and well written Rather than simply summarising the state of play in African countries and elsewhere Freedom of Information and the Developing World identifies and makes explicit the assumptions about the citizen's relationship to the state that lie beneath Freedom of Information FoI discourse The book goes on to test them against the reality of the pervasive politics of patronage that characterise much of African practice Develops a discourse about the concept of FoI This book more than meets its objective of interrogating common assumptions about the universal application of freedom of information rights The nonideological stance of its authors is one of its strengths along with their superb research and mastery of the
