From Chandos Publishing : The Human Side of Reference and Information Services in Academic Libraries: Adding Value in the Digital World (Chandos Information Professional Series) Chandos Information Professional Series the human side of reference and information services in academic libraries adding value in the digital world bachelor of library and information science the human side of reference and information services in academic libraries adding value in the digital world 2007 The Human Side of Reference and Information Services in Academic Libraries: Adding Value in the Digital World (Chandos Information Professional Series):

This book examines the questions how academic libraries provide value added reference and information services in the digital age. It provides best practices from a global perspective. The book starts by looking at the information needs and info seeking behaviours of university students and faculty. Then it examines the use cycle consumer instruction and producer. It examines the resource cycle collection development instructor maintenance. What are the essential? About the Author Dr Lesley Farmer coordinates the Library Media Teacher Program at California State University Long Beach. Dr Farmer has written 19 books and over a hundred articles on librarianship is published in JELIS and edits Education Libra.
