By Muriel Foulonneau, Jenn Riley : Metadata for Digital Resources: Implementation, Systems Design and Interoperability (Chandos Information Professional Series)

Metadata for Digital Resources: Implementation, Systems Design and Interoperability (Chandos Information Professional Series):

This book assists information professionals in improving the usability of digital objects by adequately documenting them and using tools for metadata management. It provides practical advice for libraries, archives and museums dealing with digital collections in a wide variety of formats and from a wider variety of sources. This book is forward thinking in its approach to using metadata to drive digital library systems and will be a valuable resource for those creating. About the Author: Muriel Foulonneau is project coordinator at the University of Illinois at Urbana-Champaign for the CIC OAI metadata harvesting project. She has worked with practitioners and researchers in Europe and the United States to help implement.
