Scholarly Communication in China, Hong Kong, Japan, Korea and Taiwan (Chandos Information Professional Series):

This is one of the very few books that systematically explores the characteristics of scholarly communication outside the West. Over the last decade, the advances in information technology have remodelled the foundation of scholarly communication. This book examines how countries/regions in East Asia (China, Japan, Korea and Taiwan) have reacted to the innovations in the conduct of research and in the exchange of ideas. It outlines the traditional systems of scholarly exchange and presents an excellent collection of essays detailing many aspects of intellectual life in Asia. The Electronic Library, Emerald Publishing. About the Author: Dr Jingfeng Xia is the Dean of the Library and University.
