A brand new and fully updated edition of this seminal work on archival preservation. Access to archival material, the documentary heritage of people all over the world that gives them their identity and ensures their rights is dependent on the survival of fragile materials: paper, parchment, photographic materials, audiovisual materials, and most recently, magnetic and optical formats. The primary importance of such survival is widely acknowledged but sometimes overlooked. A welcome update. The vast practical experience of the two authors clearly enriches the text. Archivists and librarians will find it a great tool to turn to for high-level preservation advice, and for students, it will provide a good broad overview of the v
